PROFESSIONAL EXPERIENCE

MIS Analyst | Fusion Business Solutions Pvt. Ltd.

Jul 2025 – Present | Udaipur, Rajasthan

- Automated 5+ recurring MIS dashboards and reporting workflows using Power BI and Excel, reducing weekly manual reporting effort by 40% and saving approximately 8 hours per week.
- Extracted and analyzed CRM data using SQL across HubSpot and Pipeline CRM, improving lead-conversion tracking accuracy by 22% and providing clearer sales-funnel visibility.
- Designed interactive KPI dashboards for Sales, Operations, and Finance teams, enabling leadership to monitor performance and conduct monthly strategic reviews.
- Streamlined data-validation and reporting controls, reducing data-entry errors by 35% while maintaining 99%+ reporting accuracy across business datasets.
- Produced weekly and monthly executive MIS reports with trend analysis, performance tracking, forecasting, and decision-support insights contributing to ₹2 Cr+ in quarterly business decisions.
- Translated requirements from 6+ cross-functional stakeholders into dashboards and structured data models, reducing recurring ad-hoc report requests by 30%.
- Validated and reconciled source data before reporting to strengthen data hygiene, consistency, and reliability across management reports.
- Analyzed operational and business KPIs to identify trends, exceptions, and performance gaps for stakeholder review.

Research & Data Analyst | Arcgate

Aug 2023 – Jun 2024 | Udaipur, Rajasthan

- Processed and cleansed 50,000+ data records per month using Excel and SQL, improving data-processing efficiency by 28%.
- Designed Power BI visual reports and trend dashboards for international clients, shortening client decision cycles by 15%.
- Analyzed research datasets across 10+ industry domains and transformed findings into market and business insights supporting client go-to-market strategies.
- Validated large datasets for completeness, consistency, and accuracy before downstream reporting and client delivery.
- Managed 20+ concurrent analytical and research deliverables while maintaining 100% on-time delivery.
- Prepared structured analytical summaries and visual reports to communicate complex findings to client stakeholders.

ANALYTICAL PROJECT EXPERIENCE

Data Visualization Job Simulation | Tata Group — Forage

Jun 2025 – Aug 2025 | Online

- Designed Power BI dashboards to visualize HR attrition, workforce trends, and finance KPIs for simulated executive stakeholders.

- Converted complex datasets into concise visual narratives using structured data-storytelling principles.
- Presented analytical findings in executive-ready formats aligned with business decision-making requirements.

Data Analytics Job Simulation | Deloitte Australia — Forage

Mar 2025 – May 2025 | Online

- Analyzed structured business datasets using Advanced Excel and Python/Pandas to identify trends, anomalies, and cost drivers.
- Identified 3 actionable cost-reduction opportunities through quantitative and exploratory analysis.
- Produced client-ready analytical reports and visualizations aligned with consulting-style presentation standards.
